Shakhboz Abdugapporov is one of the founders of the "Team" speaking club.

About: He is now studying at IUT as a freshman student in SOCIE department.

Personal words: Ever since I came to IUT I have been trying to encourage myself to study English as a second language. However, for me alone it was really hard to gain a lot of skills from English speaking and I have been trying to find partners in this field. I came up with certain ideas to facilitate my problems as soon as possible and I found bunch of friends who can do the same thinking like me so at the very moment of meeting friends we decided to open free speaking club at IUT. Therefore, we could also be great teachers on our classes and interrupt ourselves from hard studying somehow.
